

Curriculum vitae

Prof.dr. Albert Veenstra was appointed part-time professor of International Trade Facilitation and Logistics at the Operations, Planning, Accounting and Control group in the Department of Industrial Engineering and Innovation Sciences at Eindhoven University of Technology (TU/e) on 1 April 2013.

Albert W. Veenstra received a Master's degree in Econometrics from Erasmus University Rotterdam in 1994, and a PhD in Economics from the Erasmus School of Economics in 1999.

He then became director of a research company at the Erasmus University. In 2001, he started working as an assistant professor in the Rotterdam School of Management. In 2011, he became senior research integrator and senior consultant in the research group sustainable transport and logistics at TNO in Delft.

His current research interests are international transport and logistics, supply chain management and supply chain visibility, multimodal container hinterland transportation, and compliance and control in global supply chains.

Albert Veenstra is an associate editor of the Journal of Transportation Research Vol. E, and a member of the Synchronodality Steering Group of the Logistics Top sector.
